Several activities of the CATA have been performed during the academic year of 2018-2019. On very short notice, the CATA Committee was required to conduct a call announcement to the TU faculty and review prospective nominees to be provided to the Provost for Consultative Review Committees, Dean Search Advisory Committee, and Performance and Evaluation Review of Academic Deans of Schools/colleges:

- Dean Search Advisory Committee for School of Pharmacy.
- Dean's Review Committee for the College of Public Health
- Dean's Review Committee for the Kornberg School of Dentistry

Due to the very short notice, the CATA had no time to meet, but the main body of work in reviewing candidate dossiers was done by the respective committee members on their own time prior to electronically vote. The Committee responded to the Faculty Senate's candidate requests in a timely manner, within the deadlines set. The task couldn't possibly be achieved without the great cooperation, diligence and responsiveness of the Committee's members. I was and am most impressed with their conscientiousness and fairness to all candidates.
