

I have been a member of Temple's faculty for 14 years, and have served in committee and administrative roles at the departmental, college, university, and my professional field. I care deeply about shared governance and feel my knowledge of Temple as an institution as well as how other universities function will be an asset to the Educational Programs and Policies Committee. In particular, I have served many years as a curriculum committee chair and director of a graduate certificate, as well as affiliate faculty for the GSWS program and an incoming Honors faculty fellow. I also have many years of experience teaching online and hybrid forms. As such, I have a broad familiarity with interdisciplinary initiatives and online learning which may be of benefit to current university priorities and discussions.

Related, if needed I am happy to serve on the other committees I list if needed and depending on time requirements.
